CF/CN PTFE Compression Fittings

PTFE adjustable compression fittings to suit tube diameters 3.0mm, 4.0mm and 6.0mm. Available with 1/8", 1/4" and 1/2" BSP/NPT Tapered thread option

Normally available from stock, each fitting is supplied with a single ferrule (olive).

PTFE is hygienic and resistant to corrosion, including most acids.

Machined from solid PTFE

BSP/NPT Tapered thread options

Suitable for hygienic and very corrosive atmospheres

To suit tube diameters 3.0mm, 4.0mm and 6.0mm diameters

Commonly used with:

- FEP Thermocouples (page 24) and RTDs (page 40)
- PTFE Thermowells (page 63)
- Polypropylene Terminal Heads (page 62).

thread		to suit tube diameter (mm)		
		3.0	4.0	6.0
1/8"	BSPT	CF30AP	CF40AP	CF60AP
1/4"	BSPT	CF30CP	CF40CP	CF60CP
